Crystal Resistant Distillate

Safety Data Sheet Issue date: 4 December 2020 Version: 2.0 Note: Full Panel On Raw Materials

SECTION 1: Identification of the substance/mixture and of the company/undertaking

· Mixture

1.1. Product identifier

Product form

Product name : Crystal Resistant Distillate

Product code : FX-027

Note : This SDS is written to address potential worker health and safety issues associated with the

handling of the formulated product. Workers manufacturing this product should consult the SDSs of each hazardous ingredient for hazard information and handling recommendations.

1.2. Relevant identified uses of the substance or mixture and uses advised against

1.2.1. Relevant identified uses

Use of the substance/mixture : Dietary supplement/food product

1.2.2. Uses advised against

Restrictions on use : Any use not specified

1.3. Details of the supplier of the safety data sheet

Manufacturer

Mile High Labs 2555 W Midway Blvd

80020 Broomfield, Colorado - USA

T (833) 223-1011

sales@milehighlabs.com

1.4. Emergency telephone number

Emergency number : (833) 223-1011

08:30 - 16:30 MST

SECTION 2: Hazards identification

2.1. Classification of the substance or mixture

Not a hazardous substance or mixture.

2.2. Label elements

Not a hazardous substance or mixture.

2.3. Other hazards

Other hazards not contributing to the classification : None

This a dietary supplement/food product additive that is safe for consumers and other users under normal and reasonable ingestion use.

SECTION 3: Composition/information on ingredients

3.1. Substances

Not applicable

3.2. Mixtures

| Name | Product identifier | % | |
|------------------------------|--------------------------------------------|-------|--|
| Cannabidiol (CBD) Distillate | (CAS-No.) 89958-21-4 (EC-No.) 289-644-3 | 100 | |

| Total THC = (THC + THCA) | (Cas-No) 1972-08-3, 23978-85-0 (EC-No) 625-153-6, 689-813-5 | ≤ 0.2 |

^{*}Chemical name, CAS number and/or exact concentration have been withheld as a trade secret

SECTION 4: First aid measures

4.1. Description of first aid measures

First-aid measures after inhalation : Immediately move exposed subject to fresh air. If not breathing, give artificial respiration. If

breathing is labored, administer oxygen. Immediately notify medical personnel and

supervisor.

First-aid measures after skin contact : Wash exposed area with soap and water and remove contaminated clothing/shoes. If

irritation occurs or persists, notify medical personnel and supervisor.

First-aid measures after eye contact : If easy to do, remove contact lenses, if worn. Immediately flush eyes with copious quantities

of water for at least 15 minutes. If irritation occurs or persists, notify medical personnel and

supervisor.

Do not induce vomiting unless directed by medical personnel. Do not give anything to drink First-aid measures after ingestion

unless directed by medical personnel. Never give anything by mouth to an unconscious

person. Notify medical personnel and supervisor.

4.2. Most important symptoms and effects, both acute and delayed

Medical conditions aggravated by exposure: None known or reported. Treat Symptoms/effects

symptomatically and supportively.

Symptoms/effects after inhalation : Inhalation may cause irritation (cough, short breathing, difficulty in breathing).

: Dust particles may cause eye irritation by mechanical irritation. Symptoms/effects after eye contact

Symptoms/effects after ingestion : May cause drowsiness or dizziness.

4.3. Indication of any immediate medical attention and special treatment needed

Treat symptomatically and supportively.

SECTION 5: Firefighting measures

5.1. Extinguishing media

: Carbon dioxide (CO2), powder, alcohol-resistant foam, water fog. Suitable extinguishing media : Do not use a solid water stream as it may scatter and spread fire. Unsuitable extinguishing media

5.2. Special hazards arising from the substance or mixture

 No information identified. Fire hazard

No information identified. High concentrations of finely divided organic particles can explode Explosion hazard

if ignited.

Toxic fumes may be released. Hazardous decomposition products in case of fire

4 December 2020 (Version: 2.0)

EN (English)

Status: Approved

Note: Full Panel On Raw Materials

Crystal Resistant Distillate

Safety Data Sheet

5.3. Advice for firefighters

Firefighting instructions

: In case of fire in the surroundings: use the appropriate extinguishing agent. Wear full protective clothing and an approved, positive pressure, self-contained breathing apparatus.

Decontaminate all equipment after use.

SECTION 6: Accidental release measures

6.1. Personal precautions, protective equipment and emergency procedures

6.1.1. For non-emergency personnel

Emergency procedures

: Avoid all unnecessary exposure. Do not get in eyes, on skin, or on clothing.

6.1.2. For emergency responders

Protective equipment

: If product is released or spilled, take proper precautions to minimize exposure by using appropriate personal protective equipment (see Section 8). Area should be adequately

ventilated.

Emergency procedures

: Avoid all unnecessary exposure. Do not get in eyes, on skin, or on clothing.

6.2. Environmental precautions

Do not empty into drains. Avoid release to the environment.

6.3. Methods and material for containment and cleaning up

Methods for cleaning up

: Sweep spilled substance into containers; if appropriate, moisten first to prevent dusting. Sweep or shovel spills into appropriate container for disposal. Do not use compressed air

for cleaning.

Other information

: Dispose of materials or solid residues at an authorized site.

6.4. Reference to other sections

See Sections 8 and 13 for more information.

SECTION 7: Handling and storage

7.1. Precautions for safe handling

Additional hazards when processed Precautions for safe handling

- : Avoid dispersal of dust in the air (i.e., clearing dust surfaces with compressed air).
- : Avoid contact with skin, eyes, and clothing. Wear protective equipment as determined by a risk assessment. Wash hands and other exposed areas with mild soap and water before eating, drinking, or smoking and when leaving work.

7.2. Conditions for safe storage, including any incompatibilities

Storage conditions

: Store in dry protected location to prevent any moisture contact. Store in tightly closed containers and protect from light.

Incompatible products

: Strong oxidizing agents.

Storage temperature Packaging materials : Recommended storage temperature-controlled room temperature 68-77°F (20-25°C).

: Food use approved and UV resistance.

7.3. Specific end use(s)

Dietary supplement / food product.

SECTION 8: Exposure controls/personal protection

8.1. Control parameters

Name
Cannabidiol (CBD)
Cannabigerol (CBG)
Cannabielsoin (CBE)
Cannabidivarol (CBDV)

Issuer No data available No data available No data available No data available Value No data available No data available No data available

No data available

4 December 2020 (Version: 2.0)

EN (English)

Status: Approved

Note: Full Panel On Raw Materials

Crystal Resistant Distillate

Safety Data Sheet

8.2. Exposure controls

Appropriate engineering controls

Selection and use of containment devices and personal protective equipment should be based on a risk

assessment of exposure potential. Use local exhaust and/or enclosure at dust generating points. Use engineered local exhaust ventilation (LEV) and/or enclosure for procedures where dust can be released.

All containers must be covered while being transferred.

Respiratory protection Choice of respiratory protection should be appropriate to the task and the level of existing engineering

controls. At a minimum, a tight-fitting full-face respirator with HEPA filters is required when performing dust - generating operations. A powered air-purifying respirator (PAPR) with HEPA filters and head

cover is required for spill cleanup.

Hand protection Wear nitrile or other impervious gloves if skin contact is possible. When the material is dissolved or

suspended in an organic solvent, wear gloves that provide protection against the solvent.

Eye protection Wear safety glasses with side shields, chemical goggles, or full face shield, if necessary. Base the

choice of protection on the job activity and potential for contact with eyes or face. An emergency eye

wash station should be available.

Skin and body protection Wear disposable garments appropriate to the task, booties, and safety glasses with side shields.

Protective garments (coveralls, disposable coveralls, lab coats) are not to be worn in common areas (e.g., cafeterias) or out-of-doors. Employees must be trained in proper gowning and degowning

practices.

Other protective measures Wash hands in the event of contact with this substance, especially before eating, drinking or smoking.

Protective equipment is not to be worn outside the work area (e.g., in common areas or out-of-doors).

Environmental exposure controls:

Avoid release to the environment and operate within closed systems wherever practicable. Emissions should be directed to appropriate pollution control devices. In case of spill, do not release to drains. Implement appropriate and effective emergency response procedures to prevent release or spread of contamination and to prevent inadvertent contact by personnel.

SECTION 9: Physical and chemical properties

9.1. Information on basic physical and chemical properties

Physical state : Semifluid at room temperature

Appearance : Amber, semifluid
Colour : Amber
Odour
Odour : Odourless.
Odour threshold : No data available
pH : No data available
Relative evaporation rate (butylacetate=1) : No data available
Melting point : No data available

Freezing point : No data available
Boiling point : No data available
Flash point : No data available
Auto-ignition temperature : No data available
Decomposition temperature : No data available

No data available Flammability (solid, gas) No data available Vapour pressure Relative vapour density at 20 °C No data available No data available Relative density No data available Solubility No data available Log Pow · No data available Viscosity, kinematic : No data available Viscosity, dynamic : No data available Explosive properties : No data available Oxidising properties

9.2. Other information

Explosive limits

No additional information.

SECTION 10: Stability and reactivity

10.1. Reactivity

The product is non-reactive under normal conditions of use, storage and transport.

: No data available

Status: Approved

Note: Full Panel On Raw Materials

Crystal Resistant Distillate

Safety Data Sheet

10.2. Chemical stability

Stable under normal conditions.

10.3. Possibility of hazardous reactions

No dangerous reactions known under normal conditions of use.

10.4. Conditions to avoid

Direct sunlight.

10.5. Incompatible materials

No additional information available

10.6. Hazardous decomposition products

Carbon oxides (CO, CO2).

SECTION 11: Toxicological information

11.1. Information on toxicological effects

Likely routes of exposure
Acute toxicity (oral)
Acute toxicity (dermal)
Acute toxicity (inhalation)
Skin corrosion/irritation

Acute toxicity (inhalation)
Skin corrosion/irritation
Serious eye damage/irritation
Respiratory or skin sensitisation

Germ cell mutagenicity

: CBD In vitro:

Bacterial reverse mutation assay (e.g. Ames test): negative

: May be absorbed by inhalation, skin contact and ingestion

In vivo

Rat micronucleus assay: negative

Not classified. No data available.

: Not classified No data available.

While there are some positive in vitro genotoxic responses, CBD was negative for genotoxicity and carcinogenicity in rodents. The data are not sufficient for classification.

Carcinogenicity

: Not classified CBD

Rat, dietary LOAEL:50 mg/kg/day Effect: no increase in incidence of tumors

Not listed by NTP, IARC, ACGIH or OSHA as a carcinogen.

У.

Rat fertility study (males and females), Oral, NOAEL:250 mg/kg/day Effects: none

Data not sufficient for classification.

Developmental toxicity

Reproductive toxicity

CBD

Data not sufficient for classification.

Status: Approved

Note: Full Panel On Raw Materials

Crystal Resistant Distillate

Safety Data Sheet

STOT-single exposure

: Not expected to cause systemic effects to organs on single exposure. Data not sufficient for classification.

STOT-repeated exposure

: CBD

Rats (90 days), Oral LOAEL: 300 mg/kg/day

Effects: none

Not expected to cause systemic effects to organs on

repeated

exposures. Data not sufficient for classification.

Aspiration hazard

No data available

SECTION 12: Ecological information

12.1. Toxicity

Ecology - general

: The product is not considered harmful to aquatic organisms nor to cause long-term adverse effects in the environment.

Hazardous to the aquatic environment, short-term

(acute)

: Not classified

Hazardous to the aquatic environment, long-term (chronic)

: Not classified

Additional information

 Based on available data, the classification criteria are not met. The environmental characteristics of this mixture have not been fully investigated. Releases to the environment should be avoided:

12.2. Persistence and degradability

No additional information available

12.3. Bioaccumulative potential

No additional information available

12.4. Mobility in soil

No additional information available

12.5. Results of PBT and vPvB assessment

Crystal Resistant Distallate

PBT: not yet assessed

vPvB: not yet assessed

12.6. Other adverse effects

No additional information available

SECTION 13: Disposal considerations

13.1. Waste treatment methods

Waste treatment methods

: Used product should be disposed of according to local, state, and federal regulations. All wastes containing the material should be properly labeled. Dispose of wastes in accordance to prescribed federal, state, and local guidelines, e.g, appropriately permitted chemical waste incinerator. Rinse waters resulting from spill cleanups should be discharged in an environmentally safe manner, e.g, appropriately permitted municipal or on-site wastewater treatment facility.

SECTION 14: Transport information
